## PART I – FINANCIAL INFORMATION

### Item 1. Financial Statements

The interim Financial Statements of Megawide Construction Corporation (“Megawide”) as of March 31, 2013 with comparative figures as of December 31, 2012 and March 31, 2012, Cash Flows and Schedule of Aging Accounts Receivable is incorporated by reference as Exhibit 1.

### Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

*Review of results for the three (3) months ended March 31, 2013 as compared with results for the three (3) months ended March 31, 2012*

#### Results of Operations

#### Revenues and Cost of Construction

Megawide recorded gross revenues of P2.65 billion for the first quarter of 2013. There is an increase of 20% compared to revenue booked for the same period in 2012 amounting to P2.20 billion. Operating efficiency has also improved for the first quarter of 2013 due to better control on construction expenses. Operating expense ratio in 2013 and 2012 is almost identical; 4.41% and 4.97%, respectively. Other income, net has increased by P.03 billion due to gain on sale of RTB. As a result, net income increased to P.32 billion from P.26 billion during the same period in 2012.

***Review of financial condition as of March 31, 2013 as compared with financial condition as of December 31, 2012***

**Financial Condition**

As of the end of the first quarter of 2013, total assets stood at P16.42 billion, 36% higher than its value of P12.03 billion as of same period of 2012.

***Current assets grew by 48% due to the following:***

Cash and cash equivalents increased by 363% or P759 million due to collections of some receivables towards the end of the quarter, collection of downpayment from Citicore-Megawide Consortium Inc. (CMCI) for the PPP school infrastructure project of the Department of Education and from H2O Ventures for World Hotel Project.

Short-term investments increased by 62% or P3.21 billion because the Company invested the proceeds of its corporate notes issuance to Retail Treasury Bond.

Inventory increased by 161% or P109 million due to voluminous purchase of construction materials required by projects especially cement and rebar for the PPP school infrastructure project of the Department of Education.

Cost in excess of billing increased by 55% or P578 million because of expenses already incurred for the quarter of 2013 but not yet billed as of the cut-off period for some projects. This will be billed subsequently in April.

Other current assets also increased by 13% or P143 million due to downpayments made to subcontractors for the PPP. These advances will be proportionately deducted from their billings based on their accomplishment.

Trade and other receivables decreased by 18% or P619 million due to collection of bulk of the receivables in first quarter as a result of the joint effort of the Operation and Finance Departments to push for a stricter billing and collection policy.

***Non-current assets grew by 5% due mainly to:***

Increase in property and equipment because of the expansion of batching plant in Taguig and acquisition of 13 units of mobile mixers and other construction equipment

As of the end of the first quarter of 2013, total liabilities registered an increase of 56%, from P7.25 billion as of 2012 to P11.32 billion at the end of first quarter of 2013.

***Current liabilities increased by 2% or P107 million due to:***

Increase in advances from customers by 119% or P825 million due to downpayments received from H2O Ventures for World Hotel and from CMCI for the PPP school infrastructure project of Department of Education.

Decrease in trade and other payables by 20% or P381 million due to substantial payments made to suppliers towards the end of the first quarter.

Decrease in billings in excess of costs on uncompleted projects by 8% or P95 million because higher accomplishments made in the first quarter resulting to higher recoupment of downpayments from customers.

Decrease in interest-bearing loans and borrowings by 11% or P223 million due to payments of short-term loans.

***Non-current liabilities increased by P3.9 billion***

Increase is solely attributable to corporate note issuance by the Company on February 19, 2013 amounting to P4 billion.

***Material Changes to Megawide's Income Statement for the Quarter Ended March 31, 2013 compared to the Income Statement for the Quarter Ended March 31, 2012 (increase/decrease of 5% or more)***

Material Changes to Megawide's Income Statement for the quarter ended March 31, 2013 compared to the Income Statement for the quarter ended March 31, 2012 are as follows:

- 20% increase in Contract Revenues or P445 million

## LIQUIDITY AND CAPITAL RESOURCES

### Cash Flows

The following table sets forth information from Megawide's pro forma statements of cash flows for the periods indicated:

<b>(Amounts in P millions)</b>	<b>For three (3) months ended March 31</b>	
	2013 (unaudited)	2012 (Audited)
<b>Cash Flow</b>		
Net cash provided by operating activities	<b>528</b>	<b>331</b>
Net cash used in investing activities	<b>(3,459)</b>	<b>(1,579)</b>
Net cash provided by financing activities	<b>3,689</b>	<b>230</b>

## **Indebtedness**

On February 19, 2013, Megawide was able to raise P4 billion corporate notes thru private placement. The proceeds of the fund raising are to be used for the Company's working capital requirements and general corporate purposes.

To date, Megawide has not been in default in paying interests and principal amortizations.

Megawide is not aware of any events that will trigger direct or contingent financial obligations that are material to it, including any default or acceleration of an obligation.

## **RISK MANAGEMENT OBJECTIVES AND POLICIES**

The Company is exposed to a variety of financial risks in relation to its financial instruments. The Company's risk management is coordinated with the BOD, and focuses on actively securing the Company's short-to-medium term cash flows by minimizing the exposure to financial markets.

The Company does not engage in the trading of financial assets for speculative purposes nor does it write options. The most significant financial risks to which the Company is exposed to are described below and in the succeeding pages.

### ***Market Risk***

#### *(a) Foreign Currency Risk*

The Company has no significant exposure to foreign currency risks as most transactions are denominated in Philippine peso, except for U.S. dollar and Euro denominated Cash in bank amounting to P1.51 million as of March 31, 2013.

#### *(b) Interest Rate Risk*

As at March 31, 2013, the Company is exposed to changes in market rates through its short-term investments which are subject to 30 to 90 days repricing intervals. All other financial assets and liabilities have fixed rates.

### ***Credit risk***

Credit risk is the risk that a counterparty fails to discharge an obligation to the Company. The Company is exposed to this risk for various financial instruments, such as the granting loans and receivables to customers and placing deposits with local banks and investment in bonds.

The Company continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporate this information into its credit risk controls. The Company's policy is to deal only with creditworthy counterparties. Generally, the maximum credit risk exposure of financial assets is the carrying amount of the financial assets, as summarized below.

Cash and cash equivalents	<b>P 968,328,965</b>
Short-term investments	<b>3,000,000,000</b>
Financial asstes at FVTPL	<b>2,218,385,414</b>
Trade and other receivables excluding advances to suppliers	<b>2,814,359,799</b>
Refundable security deposits	<u><b>34,938,884</b></u>
	<u><b>P 9,036,013,062</b></u>

(a) *Cash and Cash Equivalent and Short-term Investments*

The credit risk for cash and cash equivalents and short-term investments is considered negligible, since the counterparties are reputable banks with high quality external credit ratings and government bonds which are considered secured. About 40% of the Company's contract receivables as of March 31, 2013 due from SMDC. The Company mitigates the concentration of its credit risk by regularly monitoring the age of its receivables from this customer and ensuring that collections are received within the agreed credit period.

(b) *Trade and Other Receivables*

Contract receivables are usually due within 30 to 60 days and do not bear any interest. Some of the unimpaired trade receivables are past due as at the end of the reporting period. No other financial assets are past due at the end of the reporting period. The trade receivables that are past due but not impaired are as follows:

Not more than 3 months	<b>P 1,077,213,000</b>
More than 4 months but not more than one year	<b>513,506,306</b>
More than one year	<u><b>120,749,492</b></u>
	<u><b>P 1,711,468,798</b></u>

The Company's management considers that the financial assets which are past due but not impaired for each reporting period are of good credit quality based on historical default rates. The balance of such receivables relates to reputable companies that have a good track record with the Company.

(c) *Refundable Security Deposit*

The Company is not exposed to any significant credit risk exposures to the Company's lessors as lease agreements were executed with reputable entities. The Company can negotiate, before the end of the lease term, to apply deposit to rentals due.

### ***Liquidity Risk***

The Company manages its liquidity needs by carefully monitoring cash outflows due in day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for six-month and one-year periods are identified monthly.

The Company maintains cash to meet its liquidity requirements for up to 60-day periods. Excess cash is invested in time deposits or short-term marketable securities. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to sell long-term financial assets.

As at March 31, 2013 the Company's financial liabilities have contractual maturities which are presented below.

	Current	Non-current
Interest-bearing loans and borrowings	P 1,852,467,379	P 5,156,322,501
Trade and other payables	<u>1,565,837,461</u>	<u>-</u>
	<b><u>P 3,418,304,840</u></b>	<b><u>P 5,156,322,501</u></b>

### **Financial Instruments**

The Company categorized its financial instruments as financial asset and financial liabilities. Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual terms of the financial instrument.

The Company's financial assets include fair value through profit and loss (FVTPL) and loans and receivables. FVTPL includes short-term placements and retail treasury bonds (RTB) that are measured at fair value, and changes therein are recognized in profit or loss. Loans and receivables include Cash and Cash Equivalents, Short-Term Investments and Trade and Other Receivables (excluding Advances to suppliers) in the statement of financial position. Loans and receivables are subsequently measured at amortized cost using the effective interest method, less impairment loss, if any. Impairment loss is provided when there is objective evidence that the Company will not be able to collect all amounts due to it in accordance with the original terms of the receivables. The amount of the impairment loss is determined as the difference between the assets' carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate.

Financial liabilities, which include interest-bearing loans and borrowings, and trade and other payables [excluding output value-added tax (VAT) payable, unearned income and estimated liability on litigation claims] are measured at amortized cost using the effective interest rate method.

The fair value of the Company's FVTPL are categorized as level 1 wherein quoted prices in active markets for identical assets was used as valuation basis. The Company did not use significant judgment in classifying its FVTPL in the fair value hierarchy because of the availability of a market that quotes prices of identical asset.

The Company considered the risk in the valuation of its financial assets by referring to quoted prices in an active markets for its FVTPL, regularly monitor the age of its receivables from its customers and ensuring that collections are received within the agreed credit period. Impairment loss is provided when there is objective evidence that the Company will not be able to collect all amounts due to it in accordance with the original terms of the receivables. The amount of the impairment loss is determined as the difference between the assets' carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate.

Financial liabilities are recognized when the Company becomes a party to the contractual terms of the instrument. All interest-related charges are recognized as an expense in profit or loss as part of Finance costs under the Other income (charges) account in the statement of comprehensive income.

The Company's FVTPL is the only financial asset measured at fair value as of the end of the second quarter. The Company sold its FVTPL in first quarter resulting to gain on sale of P64 million presented as finance income in the statement of comprehensive income. As of the first quarter, the Company opted not to revalue its RTB since the Company has no plan in selling its remaining FVTPL.

The Company does not have investment in foreign securities.
